

SEA WOLF ADVENTURES 10-DAY GLACIER BAY-JUNEAU ITINERARY

On this adventure you will explore the glacially scoured fjords of Glacier Bay, exploring the Glaciers and the lands between them. It is a 27- year old landscape offering you an amazing visual of a rapidly changing geological landscape and the plant and animal succession. As we make our way out of the lower Glacier Bay and out into Icy Straits, we enter Tongass National Forrest, the largest forest in the US and home to a multitude of plants, tree's, mammals, birds and marine mammals who flourish in this ancient moss laden landscape. These itineraries are subject to change based on park area closures/openings, permits, travel conditions and wildlife movements, weather and our collective whim!

Day 1: Meet 8:30 AM at Bartlett Cove and board the Sea Wolf. We will assemble in the main salon for introductions, an orientation discussing safety, boat layout, amenities and your Alaskan adventure. We will cruise up bay to Geike Inlet for our first paddle. Along the way we will have a kayaking introduction and lunch. After lunch, we are paddling. Geike is a beautiful fjord that may offer a glimpse of black bears, wolverines, mountain goats and a large variety of seabirds and ducks. Once back aboard we will cruise to our evening anchorage a few hours up the bay-a cruise filled with incredible vistas, wildlife on the beaches and possibly acrobatic whales in the waters. Along the way we will learn about the natural history of Glacier Bay, some of the research projects that the park is conducting and of course about the plentiful sea and wildlife. Dinner aboard the Sea Wolf and this is our evening anchorage watching the sunset over Glacier Bay. L D

Day 2: Breakfast at 8:00 am and we are off for a hike to Reid Glacier for an up-close view of this glacially carved landscape. An easy hike up the mountain, down the beach and fording a few glacial streams will bring us to the face of Reid Glacier. Here we will learn about glaciers geology, plant and animal succession and explore among the grounded icebergs. We hunt for ice worms and for those so inclined we scoop up glacial silt for wonderful glacial facials. On the intertidal walk back, we look under rocks to discover what the bears feast on during low tide, brown bears, wolverine, small mammals and harbor seals and other creatures all live in this area. Lunch underway as we head to Tarr Inlet where the Grand Pacific and Marjorie Glaciers cascade into the water. Once here we will have a wonderful paddle along a sheer cliff, which is a Kittiwake and Puffin rookery and then out in front of Marjorie Glacier for a breathtaking experience as we watch an active calving glacier from a safe distance. Once we are back onboard we will cruise through Russell Cut looking for wildlife on our way to our evening anchorage.

Day 3: After an 8 AM breakfast it is off to Gloomy Knob looking for Mountain Goats and other wildlife. If conditions permit, we will have a morning botany hike up Gloomy Knob for incredible views of the bay. Then off to an afternoon paddle at one of our anchorages that bring us close to the East Arm entrance. BLD

Day 4: Breakfast at 8:00 am as the engines are started and we will make our way up Muir Inlet, the East Arm of Glacier Bay. Our activities here depend on wilderness water opening/closing dates. We will go on an amazing hike by McBride Glacier with a paddle either up to Riggs Glacier or from Muir Glacier to Riggs. The shorelines have a great variety of shore birds, vista's and the possibilities of seeing bears, wolves or moose. Then once back to the boat we are off to our evening anchorage and dinner. Note: Options for this day are Dundas Bay, George Island and Idaho Inlet based on weather, park closures and wildlife. BLD

Day 5: Breakfast at 8 am. Sometimes we have a morning paddle at N. Sandy if the tides are right and if not, we head down bay to another pristine paddle area. N. Sandy Cove is a very rich ecosystem that supports black bears, moose coyotes, and a plentiful marine environment. We kayak around the shores scanning for Black Bears and Moose then paddle over to Puffin Island

for a truly wondrous look at a low tide vertical intertidal zone. This zone is home to hundreds of sponges, periwinkles, whelks, sea stars, sea cucumbers and urchins to just name a few species who literally hang here awaiting the return of the high tide? Back on board the Sea Wolf we will head to S. Marble Island to view a large Stellar Sea Lion Haul Out and a seabird-nesting rookery from the Sea Wolf. Then we cruise onward to Fingers Bay. BLD

Day 6:

Days 6-10 will be spent exploring the beautiful bays and fjords that make up the amazing topography and richness of the Tongass National Forest. Breakfast at 8:00 am then we are off to Point Adolphus to look for more spectacular humpback whales. We will watch whales from kayak and the Sea Wolf for the afternoon and then head to our evening anchorage.

Each day we will have a paddle and a hike with each activity exploring new Eco-regions rich with flora and fauna. We hope to see bubble-netting Humpback Whales, Orcas, Dall's Porpoises, Harbor Porpoises and Seals as well as the massive Stellar Sea Lion. On land we will be scanning for Brown and Black bears, Moose, Wolves and all the smaller creatures of the wild that inhabit this bountiful landscape.

Our itinerary will be Dependent on weather, wildlife and collective whim. We will experience the richness of Lake Eva, Iyoukeen, Basket Bay, Baranoff Warm Springs, Red Bluff Bay, the Bay of Pillars or Tebenkoff Bay, the Kuiu Islands, Pybus Bay, the Brothers Islands and the great glaciers of Thomas Bay and Endicott Arm. And not to forget paddling into Ford's Terror. We will spend our last night just down the passage from Juneau celebrating our incredible adventure. Then on to Juneau for your departure from the Sea Wolf.
