

SEA WOLF ADVENTURES  
7-DAY/6-NIGHT GLACIER BAY ITINERARY  
2020

Day 1, Saturday: Arrival in Juneau and air transfer to Gustavus. Your arrival depends on when you arrive in Juneau, but that arrival needs to be no later than 4:30 for us to arrange your flight to Gustavus. You can fly to Gustavus as early as 8:30 am and no later than 5:20. Early drop off of luggage is ok at both the airport and the Annie Mae. The commuter flight of a 3-9 passenger plane is a spectacular flight to Gustavus. If you prefer from mid-June – September, we can also book you on the Alaska Airlines flight to Gustavus which arrives late afternoon. You will stay at the beautiful Annie Mae lodge who has bikes for you to peddle about exploring and great food! D

Day 2: The Annie will bring you to Bartlett Cove for an 8:30 am to board the Sea Wolf. We will assemble in the main salon for introductions, an orientation discussing safety, boat layout, amenities and your Alaskan adventure. We will cruise up bay to Geike Inlet for our first paddle. Along the way we will have a kayaking introduction and lunch. After lunch we are paddling. Geike is a beautiful fjord that may offer a glimpse of black bears, wolverines, mountain goats and a large variety of seabirds and ducks. Once back aboard we will cruise to our evening anchorage a few hours up the bay—a cruise filled with incredible vistas, wildlife on the beaches and possibly acrobatic whales in the waters. Along the way we will learn about the natural history of Glacier Bay, some of the research projects that the park is conducting and of course about the plentiful sea and wildlife. Dinner aboard the Sea Wolf and this is our evening anchorage watching the sunset over Glacier Bay. B L D

Day 3: Breakfast at 8:00 am and we are off for a hike to Reid Glacier for an up-close view of this glacially carved landscape. An easy hike up the mountain, down the beach and fording a few glacial streams will bring us to the face of Reid Glacier. Here we will learn about glaciers geology, plant and animal succession and explore among the grounded icebergs. We hunt for ice worms and for those so inclined we scoop up glacial silt for wonderful glacial facials. On our intertidal walk back, we look under rocks to discover what the bears feast on during low tide, brown bears, wolverine, small mammals and harbor seals and other creatures all live in this area. Lunch underway as we head to Tarr Inlet where the Grand Pacific and Marjorie Glaciers cascade into the water. Once here we will have a wonderful paddle along a sheer cliff, which is a Kittiwake and Puffin rookery and then out in front of Marjorie Glacier/Johns Hopkins for a breathtaking experience as we watch an active calving glacier from a safe distance. Once we are back on board we will cruise through Russell Cut looking for wildlife on our way to our evening anchorage. B L D

Day 4: After an 8 AM breakfast it is off to Gloomy Knob looking for Mountain Goats and other wildlife. If conditions permit, we will have a morning botany hike up Gloomy Knob for incredible views of the bay. Then off to an afternoon paddle at one of our anchorages that bring us close to the East Arm entrance. BLD

Day 5: Breakfast at 8:00 am as the engines are started and we will make our way up Muir Inlet, the East Arm of Glacier Bay. Our activities here depend on wilderness water opening/closing dates. We will go on an amazing hike by McBride Glacier with a paddle either up to Riggs Glacier or from Muir Glacier to Riggs. The shorelines have a great variety of shore birds, vista's and the possibilities of seeing bears, wolves or moose. Then once back to the boat we are off to

our evening anchorage and dinner. Note: Options for this day are Dundas Bay, George Island and Idaho Inlet based on weather, park closures and wildlife. BLD

Day 6: Breakfast at 8 am. Sometimes we have a morning paddle at N. Sandy if the tides are right and if not, we head down bay to another pristine paddle area. N. Sandy Cove is a very rich ecosystem that supports black bears, moose coyotes, and a plentiful marine environment. We kayak around the shores scanning for Black Bears and Moose then paddle over to Puffin Island for a truly wondrous look at a low tide vertical intertidal zone. This zone is home to hundreds of sponges, periwinkles, whelks, sea stars, sea cucumbers and urchins to just name a few species who literally hang here awaiting the return of the high tide. Back on board the Sea Wolf we will head to S. Marble Island to view a large Stellar Sea Lion Haul Out and a seabird-nesting rookery from the Sea Wolf. Then we cruise onward to Fingers Bay. BLD

Day 7: Breakfast at 8:00 am then we are off to Point Adolphus to look for more spectacular humpback whales. Our day is spent watching whales. Around 12:00 we will head back to Bartlett Cove for a 1 pm docking. We will then have a walking tour of the Huna Tribal House and exhibits. TLC Taxi will then transport you to the airport for your flight departing Gustavus at 5:00pm and arriving 5:30pm in Juneau. BL

These itineraries are subject to change based on park area closures/openings, permits, weather, travel conditions and wildlife movements. Glacier Bay is a vast park with many spectacular fjords. We may also journey outside the park to Tongass National Forest or the beautiful Outer Coast Island's. We try to be where we should see whales, bears, sea lions, eagles, wild flowers and soaring landscapes but the anchorage may change dependent on the above. Other destinations may include Dundas Bay, Sundew Cove, Sebree Cove, Idaho Inlet, the East Arm and the Islands. Many times, we are following the wildlife as they move with their food source so we like the flexibility so we can have the greatest viewing possibilities.
